Guide / Improper use

Avoid wrong positioning of the logos in production.

Do not use the same logo sizes for XS and XXL clothes.

The logo should increase or decrease proportionally to the size of the clothes.

For women's apparel use one logo size for XS–M, another — for L–XL.

For men's apparel use one logo size for S–L, another — for XL–XXL.

For unisex apparel choose a middle range of logo sizes.

Logo is too close to the edge and goes to the armpit area

Logos are placed too low

Logos are placed too high

Logos are much larger than intended

Logo is too big on the back
